2.3. Assessment and Evidence

The qualifications are internally assessed units.

Internal assessment (internally set and internally assessed)

Internal assessment activity must ensure evidence of achievement against **all** the requirements specified within each component.

The learner will be required to produce a Portfolio of Evidence showing how the learner has met the performance and knowledge criteria for each unit required within the qualification / pathway, as directed by the learner's assessor.

The learner will be assessed against a set of performance and knowledge statements which have been derived from National Occupational Standards for your occupational.

Assessment activities must be robust in that the assessment decisions are made based on evidence, which is valid, authentic, current, sufficient, and reliable regarding the assessment taking place:

- Valid** The validity of an assessment decision is ensuring that the right thing has been assessed in the right way to deliver an accurate assessment result.
- Authentic** The assessment process must ensure that all evidence of achievement is authentic in that it has been created solely by the learner (unless otherwise required) and has not been plagiarised. If work was not authentic, it would undermine the entire the assessment process and overall qualification system.
- Current** The assessment process must ensure that the evidence used to claim qualification or unit achievement reflects current industry/qualification practice. This can be done by ensuring that the evidence is relevant at the time of the assessment as well as ensuring that the assessor has used the most-up-date assessment documentation.
- Sufficient** The Assessor must review assessment evidence to judge whether the learner has generated enough evidence at the right level to confidently cover all relevant learning outcome or assessment criteria requirements. The Assessor must also ensure their records of the assessment are complete, legible, and accurate.
- Reliable** The Assessor must ensure that they are making reliable and consistent assessment decisions across their learners and with other Assessors within the Centre. Assessment decisions must also be consistent over time and across academic/programme cycles. This can be supported by attending standardisation activities.

Unit evidence tracking documents are available on the NOCN website – search qualification / structure and units section, click on unit for Tracker document - <https://www.nocn.org.uk/products/qualifications/>.

Refer to the **NOCN Quality Assurance Manual** for further information on the Internal Quality Assurance process. This can be found on the NOCN website at www.nocn.org.uk

2.5. Learners with Particular Requirements

If you are a NOCN Recognised Centre and have learners with particular requirements, please see the **NOCN Reasonable Adjustments and Special Considerations Policy and Procedure** found on the NOCN website at www.nocn.org.uk
