The Money Charity empower people across the UK to develop the skills, knowledge, attitudes and behaviours to make the most of their money throughout their lives. By pro-actively providing education, information, advice and guidance to people of all ages and at all stages of life.

They achieve this by:

- Developing and delivering products and services which provide information and advice on money matters for those in the workplace, communities and in education.
- Influencing and supporting others to promote Financial Capability and Wellbeing, through consultancy, policy, research and media work.

Knowing how to manage your money well is a key life skill, required to ensure young people get the most out of life. How to manage your money can have a huge impact on your happiness, your stress levels, mental health, relationships and so much more.

It is vital that young people are given the skills, knowledge and confidence to enable them to navigate the complex world of personal finance once they turn 18; including budgeting, credit and how to protect your money.

The Level 1 Award in Financial Literacy will help young people succeed in everyday life and employment by familiarising them with key financial terms around budgeting, banking and how to stay safe with money. This will help personal finance seem less daunting and will allow young people who undertake the qualification to start to think about how they can make the most of their money.

The Money Charity can offer workshops for those wanting to go into more detail to help support the young people they work with.
