

ACT - AIMA Certified Trainer programme

NOCN endorses the AIMA Certified Trainer Programme - ACT - which has been designed to recognise and certify skills in the area of training and to establish a quality standard for training delivery.

AIMA (All India Management Association) is a national apex body for management in India and it is responsible for the development and delivery of ACT courses. AIMA has two assessment and certification schemes:

- AIMA Certified Trainer (ACT)
- AIMA Certified Training Coordinator (ACTC)

The certification is recognition of competencies and skills acquired by an individual as a Training professional.

AIMA can also customise the ACT skill certification modules and processes for clients to meet their specific needs, where employees are not required to be trained by AIMA but have already acquired knowledge and skills based on earlier qualification, experience and practice.

AIMA offers certification of individuals and groups of people depending on client requirements for specific skills, for example Project Management, Training Evaluation or Training Administration. In such cases, AIMA can create specific skills, procedures, evaluations, assessments and certifications.
