COURSE SPECIFICATION

**Rotating Seat Dumper
Familiarisation**

Course Specification: Rotating Seat Dumper Familiarisation

NOCN Group have produced this Assured Course in association with industry to promote familiarisation with and safe use of Rotating Seat Dumper vehicles.

The course aims to provide individuals with knowledge and understanding of the safe and correct use of Rotating Seat Dumpers, minimising risks and health and safety issues. This course will benefit to Operatives, Groundworkers, Safety Teams and Site Supervisors. The outline, structure and content of this course is assured by NOCN Group.

Course Content / Objectives

- To familiarise and undertake the additional pre-use checks specific to Rotating Seat Dumpers.
- To familiarise the operative with the additional cab controls and functions specific to a Rotating Seat Dumper.
- To know the unique function of a Rotating Seat Dumper.
- To know the advantages of using the Rotating Seat Dumper types.
- To know how, when and in what position the seat should be facing for a range of operational activities with reversible-seating types, including when on inclines, confined areas etc.
- To understand and follow safe practices when operating a Rotating Seat Dumper.
- To know how tilt sensor systems work.

Course Approval

Prior to advertising or delivering this Assured Course, organisations must first gain Centre Approval from NOCN as well as gaining approval for each individual SiteRight Assured Course. For further information regarding gaining approval, please contact the NOCN Quality Assurance Team at assurance@nocn.org.uk.

Trainer Requirements

A trainer is required to deliver this course. A trainer includes anyone within your Centre who is facilitating the training to learners in any environment e.g., tutor, trainer, teacher, coach, facilitator. That individual can also perform the role of assessor for this course.

All trainers and assessors must:

- Hold verifiable knowledge of the occupational standards at or above the level being taught.
- Hold or be working towards a recognised teaching / training or assessor qualification (dependent on their role), such as the Level 3 Award in Assessing Vocational Achievement or Level 3 Award in Education and Training.
- Hold a CPCS Dumper Category (Blue Card) or equivalent.

- Have received specific training on the use of rotating seat types, along with having appropriate knowledge of their unique operation.
- Have a minimum of 5 years onsite experience.
- Keep up to date with industry best practice for the duration of their role.
- Maintain a record of Continuous Personal Development (CPD).
- Hold an up-to-date CV.

Please refer to the SiteRight Assured Course Quality Manual, available on the NOCN website for further tutor requirements.

Resource and Equipment Requirements

In order to deliver the course, the Centre must have access to and make use of the following resources and equipment:

Requirement	Detail
Training Environment	<ul style="list-style-type: none"> • Classroom based - clean and dry training area with adequate tables and chairs • Outdoor for practical skills development and assessment
Tools/Equipment	<ul style="list-style-type: none"> • Rotating Seat Dumper(s) • Stop block / berm • Suitable load materials, including means of loading into Dumpers e.g., excavator • Laptop or desktop – course delivery presentation • Paper and pens • Flipchart or whiteboard
Personal Protective Equipment (minimum)	<ul style="list-style-type: none"> • Safety Boots • Hi-Viz Jacket / Top & Trousers • Gloves • Glasses • Hard Hat
Delivery	<ul style="list-style-type: none"> • PowerPoint presentation outlining safe and correct Rotating Seat Dumper operations
Testing	<ul style="list-style-type: none"> • Written paper testing underpinning knowledge. • Practical tasks assessing correct and safe operation of a Rotating Seat Dumper.

Course Pre-requisites

Delegates must hold a current red or blue scheme card, such as CPCS, NPORS or other recognised cards, bearing the category of Forward Tipping Dumper.

Course Delivery

The course must consist of a maximum of 4 delegates, unless pre-agreement is gained from NOCN. The number of delegates attending will be dependent on the number of Rotating Seat Dumpers available for training and assessment purposes.

The course will be delivered over a 3.5-hour period when the machine to delegate ratio is 1:2.

The course is both theory-based, delivered via a presentation, and practical, delivered outside. Course may be delivered in a training centre or, alternatively, in an appropriate location on-site. Centres must ensure that a trench is available for delegates use throughout skill development and assessment. Centres are unable to deliver this course if they do not have access to a trench.

The NOCN assured training resources must be used to deliver the training. To ensure that the most up-to-date material is being used centres must download the material from MyNOCN each time, prior to delivery of a course. All surplus training material must be destroyed after each occasion that a course has been run.

The structure of the training is provided by the course PowerPoint and lesson plan. Trainers are expected to use these resources to guarantee that delegates are witness to the total information required to successfully complete this course.

Assessment

There are two assessment methods: a written knowledge test and a practical assessment covering the correct and safe use of a rotating seat dumper.

Knowledge assessment

- Pass mark is 70% (21 marks out of 30).
- Time allowed is 30 minutes.

Practical assessment

- Time allowed is 50 minutes – this should include time for the Assessor to feedback to Candidates on completion of their test.

Assessment materials (Knowledge test papers and Practical Assessment Record Sheets) must be printed immediately prior to the training course being delivered. The Centre should retain the delegates' assessment materials for 5 years after the course has been completed. Any unused assessment material must be securely destroyed after completion of the course.

Certification is then completed by the tutor once the delegates have successfully completed the course.

Candidates unsuccessful in the knowledge or practical assessments should undergo additional training to ensure their knowledge, understanding and skills are at the required level before attempting the assessment again.

Certification for this course is valid for 5 years from the date of training. To remain certified in this area, delegates will need to retake the course again before the certificate expires.

Quality Assurance

The Quality Assurance requirements of SiteRight Assured Course delivery can be found within the SiteRight Assured Course Quality Manual, available on the NOCN website.
