Updated Notification:

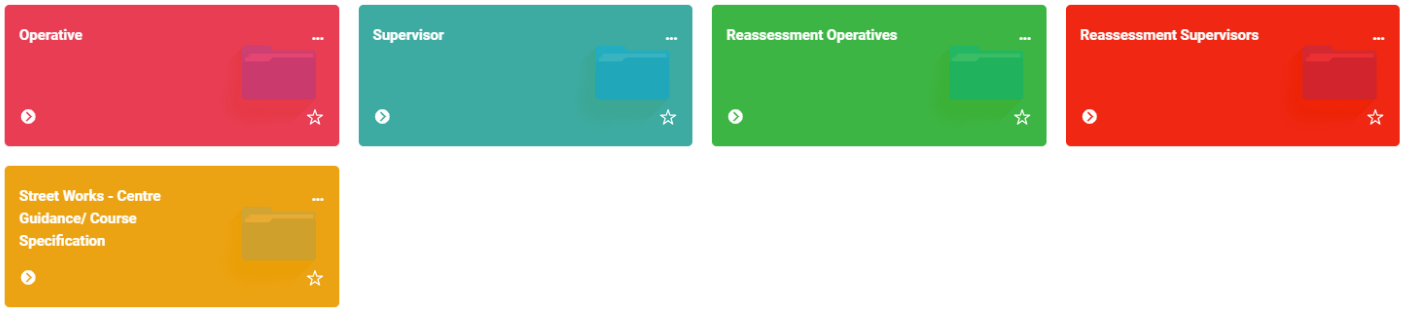
Street Works Qualifications

Dear Colleague,

As part of our commitment to provide qualifications in line with industry requirements we regularly review all qualifications across all occupations.

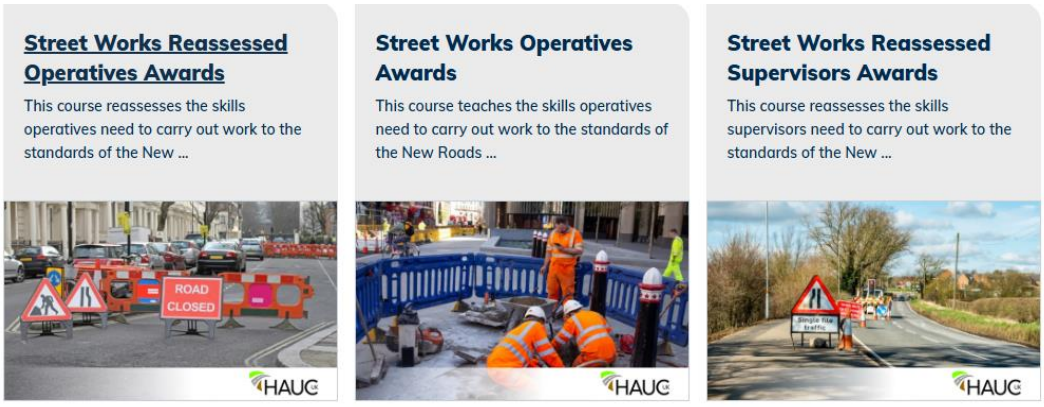
Having liaised with HAUC Training & Accreditations Group, HAUC UK have recently reviewed and updated the question bank, assessment strategy, centre compliance document and all associated documents.

These updated documents can be viewed in the NOCN vLearn portal, in the relevant folders below:



NOCN Group offers a suite of Street Works qualifications for operatives and supervisors working on the roads/highways.

They meet the requirements of the New Roads and Street Works Act 1991 (NRSW) which requires work involving the installation, renewal, maintenance, and inspection of underground apparatus in the highway to be under the control of competent persons who are in possession of a valid Street Works card.



From the **2nd of January 2025** all Training Centres will be expected to comply with the new requirements and will be subject to audit against those requirements from this date.

If any centres have feedback regarding any changes they would like to raise, then use the latest version of the HAUC UK NRSWA Assessment Comment Form V2.0 24 in vLearn.

In addition to the new updated documents, HAUC and the AOs have created EQA standardisation meetings, which involve EQA representatives from all AOs and HAUC TAG.

The primary purpose of these quarterly meetings is to ensure a standardised approach to the way we review and assess training centres, their facilities and capabilities to deliver Street Works training in line with the assessment strategy and centre compliance document requirements.

These meetings will allow HAUC to approach the updating of all criteria and documents differently, meaning all centres will have to adhere to the same levels of scrutiny and assessment regardless of which AO they are approved under.

These meetings are set to continue for the foreseeable future and will enable HAUC to monitor and assess the changes once they go live next month and also to make any updates that may be required to ensure they remain current.

If you have any questions, please contact the customer co-ordinator on:

0300 999 1177 (select option 1, then 3)

Kind regards,

NOCN
