

## Notification:

### New Course: Working at Height Awareness

Dear Colleague,

As part of our commitment to provide courses in line with industry requirements we regularly review all courses across all occupations.

A new course has been developed for the construction industry to use:

- **Working at Height Awareness**

Quartz id: **30013606**

Registration fee: **£15.00**

Course length: **1 day**

The course aims to provide individuals with the knowledge and understanding to safely work from height. Giving the learners the ability to identify various types of access equipment and understand their applications in compliance with UK working at height regulations.

This course will benefit to both newly qualified and experienced Construction workers. The outline, structure and content of this course is assured by NOCN Group.

#### Course Content / Objectives (examples)

- Understand the importance of working safely at height
- Learn about key regulations and legal responsibilities
- Identify common hazards and control measures
- Familiarise yourself with types of access equipment and working platforms
- Understand the correct use of Personal Protective Equipment (PPE)
- Learn about emergency procedures and incident reporting

Certification for this course is valid for **5 years** from the date of training. To remain certified in this area, delegates will need to retake the course again before the certificate expires.

If you have any questions, visit the NOCN website or please contact the customer co-ordinator on: 0300 999 1177 (select option 1, then 3)

Kind regards,

NOCN
