<p>Target Audience</p>	<ul style="list-style-type: none"> • Managers and supervisors • Health and safety officers • Employees responsible for safety within their roles. • Individuals seeking to enhance their knowledge and skills in health and safety. 	<p>Length of Study</p>	<p>12 hours</p>

**Unit(s)
Learning
Outcomes**

1. Principles of Fire safety	
Learning Outcome - 1: <ul style="list-style-type: none"> ✚ To know the key fire safety regulations and standards. ✚ To identify the roles and responsibilities in fire safety. Contribute to a safer workplace environment. 	Assessment Criteria: <ul style="list-style-type: none"> • Understand key fire safety regulations and standards. • Recognize roles and responsibilities in fire safety. Contribute to a safer workplace environment.
2. Workplace fire hazards and risk	
Learning Outcome - 1: <ul style="list-style-type: none"> ✚ Know how to grasp the importance of fire risk assessments. ✚ Know how to conduct effective fire risk assessments. ✚ Know how to prioritize and mitigate identified risks. ✚ To know how to prepare document and communicate assessment findings 	Assessment Criteria: <ul style="list-style-type: none"> • Grasp the importance of fire risk assessments. • Conduct effective fire risk assessments. • Prioritize and mitigate identified risks. • Documenting and communicating assessment findings
3. Fire risk assessments	
Learning Outcome - 1: <ul style="list-style-type: none"> ✚ To understand the importance of fire risk assessments. ✚ To know how to conduct effective fire risk assessments. ✚ Able to prioritize and mitigate identified risks. ✚ To know how to documenting and communicating assessment findings 	Assessment Criteria: <ul style="list-style-type: none"> • Grasp the importance of fire risk assessments. • Conduct effective fire risk assessments. • Prioritize and mitigate identified risks. • Understand the Document and communicate assessment findings
4. Workplace fire risks control	
Learning Outcomes: <ul style="list-style-type: none"> ✚ To learn fire risk control measures. ✚ To know how to implement controls specific to various workplaces. ✚ To understand how to Monitor effectiveness of controls. ✚ Know how to adapt controls to changing conditions. ✚ To understand how to maintain a safer workplace through risk control 	Assessment Criteria: <ul style="list-style-type: none"> • Understand the fire risk control measures. • Implement controls specific to various workplaces. • Monitor effectiveness of controls. • Adapt controls to changing conditions. • Maintain a safer workplace through risk control
5. Managing Fire Risks in Remote or Isolated Work Areas	
Learning Outcomes: <ul style="list-style-type: none"> ✚ To learn unique risks in remote areas. ✚ To know mitigate fire risks in challenging environments. 	Assessment Criteria: <ul style="list-style-type: none"> • Understand unique risks in remote areas. • Mitigate fire risks in challenging environments.

	<ul style="list-style-type: none"> ✚ To know how to implement specialized safety plans. ✚ Know how to train workers in remote fire safety procedures. ✚ To learn how to ensure continuous monitoring in remote areas. 	<ul style="list-style-type: none"> • Implement specialized safety plans. • Train workers in remote fire safety procedures. • Ensure continuous monitoring in remote areas.
6. Fire safety management principles and practices		
<p>Learning Outcomes:</p> <ul style="list-style-type: none"> ✚ Learn core fire safety management principles. ✚ To know how to develop and implement safety management plans. ✚ To integrate fire safety into broader safety programs. ✚ To know how to lead and coordinate fire safety efforts. ✚ To understand how continuously improve fire safety practices. 	<p>Assessment Criteria:</p> <ul style="list-style-type: none"> • Understand core fire safety management principles. • Develop and implement safety management plans. • Integrate fire safety into broader safety programs. • Lead and coordinate fire safety efforts. • Understand continuously improve fire safety practices. 	
7. Role of fire warden		
<p>Learning Outcomes:</p> <ul style="list-style-type: none"> ✚ To know the duties of a fire warden. ✚ Know how to conduct effective fire drills and evacuations. ✚ To know how to communicate during fire emergencies. ✚ To learn how to inspect and maintain fire safety equipment. ✚ To know how to respond confidently during emergencies. 	<p>Assessment Criteria</p> <ul style="list-style-type: none"> • Understand the duties of a fire warden. • Conduct effective fire drills and evacuations. • Communicate during fire emergencies. • Inspect and maintain fire safety equipment. • Understand Respond confidently during emergencies. 	
8. Evection and emergency preparedness		
<p>Learning Outcomes:</p> <ul style="list-style-type: none"> ✚ To identify and follow evacuation routes. Identify and use emergency exits. Engage effectively in emergency drills. ✚ To know how to implement emergency protocols during crises. Evaluate and improve preparedness plans. 	<p>Assessment Criteria:</p> <ul style="list-style-type: none"> • Describe and follow evacuation routes. Identify and use emergency exits. Engage effectively in emergency drills. • Implement emergency protocols during crises. Evaluate and improve preparedness plans.
