

Title	NOCN International Level 2 Award in Safe Rigging & Slinging Techniques		
Topic Summary	The International Level 2 Safe Rigging and Slinging Techniques course is to provide participants with comprehensive knowledge and practical skills necessary to safely and effectively rig and sling loads in various industrial and construction settings. The course focuses on imparting essential theoretical understanding, practical techniques, and safety protocols to minimize risks and ensure compliance with relevant regulations and industry standards.		
Target Audience	Riggers & Slingers and Supervisors	Length of Study	12 hours

Unit(s) Learning Outcomes		
	Learning Outcome - 1: <ul style="list-style-type: none"> ✚ Understand and explain regulations, standards and terminology in lifting operation for riggers and slingers 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Identify the requirements of regulations and approved codes of practice applicable to lifting operation and rigging. ▪ Summarize the employer’s statutory obligation to provide safe site environment and workplace.
	Learning Outcome - 2: <ul style="list-style-type: none"> ✚ Understand the definition of rigger & slinger and rigging & slinging terminology. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Explain the terminology of lifting, rigger and rigging & slinging. ▪ Outline the different hardware of rigging. ▪ Outline types of lifting.
	Learning Outcome - 3: <ul style="list-style-type: none"> ✚ Understand the risks associated with crane lifting operations and rigging activity. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Outline the hazard and risk factors of ignoring deploy competent person.

		<ul style="list-style-type: none"> ▪ Outline the risk factors of lifting operation. ▪ Outline the different hazards associated with lifting operation and rigging. 	
	Learning Outcome - 4: <ul style="list-style-type: none"> ✚ Understand the Key possible contributing factors for lifting operation accidents. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Outline the key possible contributing factors for accidents. ▪ Display the different videos related the lifting operation accidents. 	
	Learning Outcome - 5 <ul style="list-style-type: none"> ✚ Understand the roles and responsibilities of relevant personnel. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Explain roles and responsibilities of Rigger. ▪ Outline the requirement skills for rigger. 	
	Learning Outcome - 6: <ul style="list-style-type: none"> ✚ Understand the Rigging Hardware and its use on lifting operation. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Outline the rigging hardware. ▪ Explain the maintenance and inspection procedure for rigging hardware prior to use. 	
	Learning Outcome - 7: <ul style="list-style-type: none"> ✚ Understand the types of Slings and Hitches and demonstrate its use. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Explain the method of chose right hardware for lifting operation of any material. 	
	Learning Outcome - 8: <ul style="list-style-type: none"> ✚ Develop an ability to plan or assist in planning crane lifting operations. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Explain the rigging principles. ▪ Explain the permit to work PTW. ▪ Explain the lifting policies and procedures. 	
	Learning Outcome - 9: <ul style="list-style-type: none"> ✚ Develop a working knowledge of safe, and best lifting practice. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Outline the control measures to avoid risk factors related to lifting operation. ▪ Outline lifting operation safety precautions. ▪ Safe traffic management plan. 	
	Learning Outcome - 10: <ul style="list-style-type: none"> ✚ Understand the Hand Signals. 	Assessment Criteria: <ul style="list-style-type: none"> ▪ Explain the duties of banks man. ▪ Explain and demonstrate recommended practice for rigging. 	
Delivery Style	Classroom Learning	Certificate Validity	2 years
