

<b>Title</b>	<b>NOCN International Level 3 Certificate in Health and Safety Skills</b>		
<b>Topic Summary</b>	<p>The primary aim of the NOCN International level 3 Certificate in Health &amp; Safety Skills course is to provide participants with a comprehensive understanding of health and safety principles, practices, and regulations. The course aims to foster a culture of safety and well-being in the workplace by enabling participants to identify, assess, and mitigate potential health and safety risks effectively.</p> <ul style="list-style-type: none"> <li>• Key health and safety legislation, regulations, and standards relevant to the workplace.</li> <li>• Potential hazards and assess risks associated with various workplace activities.</li> <li>• Safe working practices and procedures for different types of work environments.</li> <li>• Emergency response plans and procedures</li> <li>• Impact of workplace health on overall employee well-being.</li> <li>• Effective communication skills to promote health and safety awareness among employees.</li> <li>• Legal implications of non-compliance with health and safety regulations</li> </ul>		
<b>Target Audience</b>	<ul style="list-style-type: none"> <li>• Managers and supervisors</li> <li>• Health and safety officers</li> <li>• Employees responsible for safety within their roles.</li> <li>• Individuals seeking to enhance their knowledge and skills in health and safety</li> </ul>	<b>Length of Study</b>	154 hrs.

<b>Unit(s) Learning Outcomes</b>	<b>NOCN International Level 3 Award in Basic First Aid</b>	
	<p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• Understand the role and responsibilities of a first aider.</li> <li>• Understand the scene and the casualty.</li> <li>• To be familiar with CPR confidently.</li> <li>• To understand the unconscious casualty effectively.</li> <li>• Provide first aid treatment for a range of injuries and medical conditions.</li> <li>• Maintain accurate records of incidents and treatments provided.</li> </ul>	<p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Understand the role and responsibilities of a first aider.</li> <li>▪ Conduct an initial assessment of the scene and the casualty.</li> <li>▪ Perform CPR confidently.</li> <li>▪ Manage an unconscious casualty effectively.</li> <li>▪ Provide first aid treatment for a range of injuries and medical conditions.</li> <li>▪ Maintain accurate records of incidents and treatments provided.</li> </ul>

**NOCN International Level 2 Award in Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillator (AED)**

**Learning Outcome:**

- Recognize the signs and symptoms of cardiac arrest.
- Conduct a scene survey and ensure safety.
- Understand high-quality CPR on adults, children, and infants.
- Understand how to use AED effectively and safely.
- Understand the importance of timely defibrillation and how it integrates with CPR.
- Communicate effectively with EMS and provide necessary information

**Assessment Criteria:**

- Identify the signs and symptoms of cardiac arrest.
- Conduct a scene survey and ensure safety.
- Perform high-quality CPR on adults, children, and infants.
- Use an AED effectively and safely.
- Understand the importance of timely defibrillation and how it integrates with CPR.
- Communicate effectively with EMS and provide necessary information.

**NOCN International Level 3 Award in Principles of Fire Safety.**

**Learning Outcome:**

- Understand the principles of fire safety and the fire triangle.
- Determine fire hazards and implement preventive measures.
- Understand the use of firefighting equipment effectively.
- Develop and execute emergency evacuation plans.
- Understand fire risk assessments and contribute to fire safety management.
- Understand the roles and responsibilities of fire wardens and marshals.

**Assessment Criteria:**

- Understand the principles of fire safety and the fire triangle.
- Identify fire hazards and implement preventive measures.
- Use firefighting equipment effectively.
- Develop and execute emergency evacuation plans.
- Conduct fire risk assessments and contribute to fire safety management.
- Understand the roles and responsibilities of fire wardens and marshals at work.

**NOCN International Level 3 Award in Workplace Health & Safety**

**Learning Outcome:**

- Understand and apply health and safety legislation and regulations.
- Apply effective health and safety policies and procedures.
- Understand thorough risk assessments and implement appropriate control measures.
- Determine and manage common workplace hazards.
- Analyze accidents and incidents to prevent recurrence.
- Provide effective health and safety training to employees.
- To know how to develop and implement emergency response plans.
- Promote health and well-being in the workplace.

**Assessment Criteria:**

- Understand and apply health and safety legislation and regulations.
- Develop and implement effective health and safety policies and procedures.
- Conduct thorough risk assessments and implement appropriate control measures.
- Identify and manage common workplace hazards.
- Investigate accidents and incidents to prevent recurrence.
- Deliver effective health and safety training to employees.
- Develop and implement emergency response plans.
- Promote health and well-being in the workplace.

**NOCN International Level 3 Award in Control of Substances Hazardous to Health (COSHH) Awareness**

**Learning Outcome:**

- Understand the importance of COSHH and relevant legislation.
- Identify hazardous substances and assess the associated risks.

**Assessment Criteria:**

- Understand the importance of COSHH and relevant legislation.
- Identify hazardous substances and assess the associated risks.

<ul style="list-style-type: none"> <li>• Apply effective control measures to reduce exposure to hazardous substances.</li> <li>• Reflect on COSHH risk assessments.</li> <li>• Know how to utilize safe handling and storage practices for hazardous substances.</li> <li>• To know how to monitor exposure levels and implement health surveillance programs.</li> <li>• Understand adequate training and information to employees on COSHH</li> </ul>	<ul style="list-style-type: none"> <li>▪ Implement effective control measures to reduce exposure to hazardous substances.</li> <li>▪ Conduct and review COSHH risk assessments.</li> <li>▪ Apply safe handling and storage practices for hazardous substances.</li> <li>▪ Monitor exposure levels and implement health surveillance programs.</li> <li>▪ Provide adequate training and information to employees on COSHH.</li> </ul>

<b>NOCN International Level 3 Award in Safe Working at Height</b>	
<p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• To understand the legal and practical importance of safety when working at height.</li> <li>• To identify hazards and assess risks associated with work at height tasks.</li> <li>• To carry out thorough risk assessments and implement effective control measures.</li> <li>• To know how to select, inspect, and use work at height equipment correctly.</li> <li>• Familiarize safe working practices to minimize the risk of falls and other injuries.</li> <li>• To develop and follow emergency procedures for work at height.</li> </ul>	<p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Understand the legal and practical importance of safety when working at height.</li> <li>▪ Identify hazards and assess risks associated with work at height tasks.</li> <li>▪ Conduct thorough risk assessments and implement effective control measures.</li> <li>▪ Select, inspect, and use work at height equipment correctly.</li> <li>▪ Apply safe working practices to minimize the risk of falls and other injuries.</li> <li>▪ Develop and follow emergency procedures for work at height.</li> </ul>
<b>NOCN International Level 3 Award in Investigation Skills</b>	
<p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• To understand the importance and legal requirements of accident and incident investigation.</li> <li>• To gain an understanding of thorough and systematic investigations.</li> <li>• To know how to gather and analyze evidence to identify root causes.</li> <li>• Can recommend and implement effective corrective actions.</li> <li>• Can Write clear, comprehensive investigation reports.</li> <li>• Know how to monitor and review control measures to prevent future incidents.</li> </ul>	<p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Understand the importance and legal requirements of accident and incident investigation.</li> <li>▪ Conduct thorough and systematic investigations.</li> <li>▪ Gather and analyze evidence to identify root causes.</li> <li>▪ Recommend and implement effective corrective actions.</li> <li>▪ Write clear, comprehensive investigation reports.</li> <li>▪ Monitor and review control measures to prevent future incidents.</li> </ul>
<b>NOCN International Level 3 Award in Fire Warden Skills</b>	
<p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• To understand the principles and importance of fire safety in the workplace.</li> <li>• To know how to identify potential fire hazards and implement preventive measures.</li> <li>• Know how to assist in the development and implementation of emergency evacuation procedures.</li> <li>• Understand the use of fire safety equipment effectively, including fire extinguishers.</li> <li>• To know how to coordinate and communicate effectively during a fire emergency.</li> </ul>	<p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Understand the principles and importance of fire safety in the workplace.</li> <li>▪ Identify potential fire hazards and implement preventive measures.</li> <li>▪ Assist in the development and implementation of emergency evacuation procedures.</li> <li>▪ Use fire safety equipment effectively, including fire extinguishers.</li> <li>▪ <b>Coordinate and communicate effectively during a fire emergency</b></li> </ul>
<b>NOCN International Level 3 Award in Entering and Working in Confined Spaces</b>	
<p><b>Learning Outcome:</b></p>	<p><b>Assessment Criteria:</b></p>

	<ul style="list-style-type: none"> <li>• To Identify and define confined spaces and understand their associated hazards.</li> <li>• To know how to recognize the importance of risk assessments and the permit-to-work system.</li> <li>• To know how to apply safe work practices and procedures for confined space entry.</li> <li>• Familiarize the roles and responsibilities of the confined space entry team.</li> <li>• To know how to plan and implement effective emergency response plans for confined space incidents.</li> <li>• To know how to select and use appropriate personal protective equipment (PPE) for confined space operations.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Identify and define confined spaces and understand their associated hazards.</li> <li>▪ Recognize the importance of risk assessments and the permit-to-work system.</li> <li>▪ Apply safe work practices and procedures for confined space entry.</li> <li>▪ Understand the roles and responsibilities of the confined space entry team.</li> <li>▪ Develop and implement effective emergency response plans for confined space incidents.</li> <li>▪ Select and use appropriate personal protective equipment (PPE) for confined space operations.</li> </ul>			
<b>NOCN Internation Level 3 Award in Gas Detection and Testing</b>					
<b>Delivery Style</b>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td data-bbox="580 586 1575 1003" style="width: 50%; vertical-align: top;"> <p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• Familiarize the importance and principles of gas testing in ensuring workplace safety.</li> <li>• To identify common hazardous gases and their associated risks.</li> <li>• To know how to select, use, and maintain appropriate gas detection equipment.</li> <li>• To understand gas testing procedures accurately and effectively.</li> <li>• To know how to interpret gas test results and implement necessary safety measures.</li> <li>• To familiarize safe work practices and emergency procedures related to gas testing.</li> </ul> </td> <td data-bbox="1575 586 2454 1003" style="width: 50%; vertical-align: top;"> <p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Familiarize the importance and principles of gas testing in ensuring workplace safety.</li> <li>▪ To identify common hazardous gases and their associated risks.</li> <li>▪ To know how to select, use, and maintain appropriate gas detection equipment.</li> <li>▪ To understand gas testing procedures accurately and effectively.</li> <li>▪ To know how to interpret gas test results and implement necessary safety measures.</li> <li>▪ To familiarize safe work practices and emergency procedures related to gas testing.</li> </ul> </td> </tr> </table>			<p><b>Learning Outcome:</b></p> <ul style="list-style-type: none"> <li>• Familiarize the importance and principles of gas testing in ensuring workplace safety.</li> <li>• To identify common hazardous gases and their associated risks.</li> <li>• To know how to select, use, and maintain appropriate gas detection equipment.</li> <li>• To understand gas testing procedures accurately and effectively.</li> <li>• To know how to interpret gas test results and implement necessary safety measures.</li> <li>• To familiarize safe work practices and emergency procedures related to gas testing.</li> </ul>	<p><b>Assessment Criteria:</b></p> <ul style="list-style-type: none"> <li>▪ Familiarize the importance and principles of gas testing in ensuring workplace safety.</li> <li>▪ To identify common hazardous gases and their associated risks.</li> <li>▪ To know how to select, use, and maintain appropriate gas detection equipment.</li> <li>▪ To understand gas testing procedures accurately and effectively.</li> <li>▪ To know how to interpret gas test results and implement necessary safety measures.</li> <li>▪ To familiarize safe work practices and emergency procedures related to gas testing.</li> </ul>
