

NOCN Record of Mitigations - Summer Assessment Series 2020

Vocational and General Qualifications – Adaptions

This proforma will be used by NOCN to record its policy decisions regarding learners registered on NOCN Vocational and Technical Qualifications, who have had their learning disrupted by the COVID-19 pandemic. This proforma has been created, by request of the Regulator, and follows the government direction regarding the disruption to Vocational, Technical and Other General Qualifications for Summer 2020. This was communicated to Awarding Organisations on the 9th April 2020:

<https://www.gov.uk/government/news/awarding-vocational-and-technical-qualifications-this-summer>.

The purpose of this document is to record NOCN’s decision making regarding Condition VTQCov8.1(b). This document will be used as a working document and will be amended with additional information if decisions require amending or if further direction or guidance is issued by the Regulators. This document will be provided to the Qualification Regulators upon their request.

Overview	
Qualification(s) in scope	<p>This proforma relates to all general NOCN and vocationally-related qualifications, which have been categorised by NOCN as requiring a ‘adaption’ mitigation.</p> <p>The full list of respective qualifications is listed in Appendix A.</p>
Mitigation	<p>The primary mitigation for all units/assessments within the qualifications listed in Appendix A is ‘adaption’</p>
Rationale for the type of mitigation	<p>The decision of whether to adapt an assessment or issue a calculated result for a unit/assessment has been made by NOCN dependent on which qualification that unit/assessment is a part of and has taken into account the content of the qualification, how the qualification is assessed, whether the qualification leads to employment or higher education and ensuring that standards can be maintained.</p> <p>In line with the direction provided by Ofqual, NOCN will work with its approved centres to issue calculated results for the majority of its qualifications. This would not be appropriate for all qualifications, specifically where a qualification is designed to signal occupational or professional competence. Therefore, the qualifications selected for adaptions have been assigned this mitigation if:</p> <ul style="list-style-type: none"> • The qualification is license to practice. • The achievement of the qualification does signal occupational competence. • There are, or may be, health and safety risks in issuing a calculated result.

Vocational and General Qualifications – Adaptions

	<ul style="list-style-type: none"> • Achievement of <u>the</u> qualification may lead to a learner gaining technical employment. • Due regard for Sector bodies and assessment strategies. <p>The use of adaptation has been used to maximise the number of learners that receive their results this spring and summer, to support progression where qualifications are a critical component of occupational or professional competence.</p> <p><u>Hybrid Approaches</u></p> <p>In some cases, a qualification’s primary mitigation may have been assigned ‘Adaption’ by NOCN, however, a calculated result may be required for a small amount of units within that qualification. For example, where an online knowledge test is required to be sat, where a Centre or learner may not have internet access. For these particular units, NOCN will allow the submission of a CAG to determine a calculated result, even though the primary mitigation of the qualification is in fact adaption. These qualifications will be listed on this adaption proforma.</p>
<p>Rationale for mitigation regarding NOCN Plant qualifications</p>	<p>In line with the Addendum to the Consolidated Assessment Strategy (COVID-19) issued by CITB, NOCN recognises that plant qualifications have a requirement specifically listed within the Consolidated Assessment Strategy and that these requirements have not changed.</p> <p>Centres are still required to ensure that the assessment includes all the following:</p> <ul style="list-style-type: none"> • observation of performance by the assessor or assessors • witness testimony or testimonies by an expert witness/witnesses • professional discussion.
<p>Operating outside of this process</p>	<p>NOCN expects all centres to act upon this policy and remain within it. If, however, there is good reason, there is no need to calculate results or the learner shows a strong choice to treat their qualification in a different manner, then NOCN will accept ‘Normal’ qualification delivery or a delay to achievement but this decision needs to be checked with NOCN via assurance@nocn.org.uk and documentation of the decision retained.</p>

Overview	
<p>Provide detail of components to be adapted</p>	<p>For each unit where evidence is not sufficient to claim for learner achievement or, where a unit signals professional competency, centres should look to adapt assessment to ensure fairness to its learners and support learner progression.</p> <p>Where adapted assessment is necessary, the following are types of learner assessment evidence should be considered to generate evidence for key outcomes of learning:</p> <ul style="list-style-type: none"> • Remote testing (this could be paper based, app based, online, audio, video): This should contain content to assess skills, knowledge and understanding which is outlined in the Unit Specification. NOCN is currently working with our system providers to implement remote invigilation to allow learners to complete knowledge assessments in the usual manner. • Professional Discussion: using and recording professional discussion between a learner and an assessor focusing on, and enhancing, evidence already provided or demonstrated by the learner - including real work activities, practical tasks, a case study, project, portfolio or some other form of assessment. • Practical assessment: Where possible, evidence may be assessed using remote assessment (video, photographic, portfolio, witness testimony), alongside work already demonstrated and assessed. <p>Centres must be able to provide evidence to support their assessment decisions. Internal quality assurance and standardisation activities must continue in line with a Centre’s IQA policy and requirements and all records must be retained for external quality assurance.</p> <p>NOCN is aware that the list that we have issued is not a definitive list and centres may have devised other ways to adapted assessments. Due to the varying natures of NOCN qualifications, centres are encouraged to discuss adaptions outside of the ones listed above with their EQA to ensure that the collated evidence will meet the requirements of the criteria/outcomes set out in the qualification and that it is valid, reliable and authentic. This approach provides centres with the flexibility to ensure that all learners have an opportunity to complete any units or assessments that they may need to complete their qualification.</p>

Vocational and General Qualifications – Adaptions

<p>Rationale</p>	<p>See above for detail on assessment methods used.</p> <p>In all cases EQAs will quality assure Centre adaptions to ensure validity. This will be a similar approach to the quality assurance process that will be completed for calculated results, with a focus on ensuring that adaptions to assessments are valid to allow for evidence of achievement to be collated.</p> <p>Where a Centre does not provide details of their adaptions, their achievements will not be processed until the EQA has sampled the evidenced submitted for achievement.</p>
<p>Sector/professional body – due regard?</p>	<p>We have been in contact with different sector and professional bodies for individual sectors and are abiding by any adaptation to consulate assessment strategies. We have followed the guidance of Ofqual and sector/professional bodies to ensure continuity where adaptions to assessment is applied.</p> <p>NOCN have communicated with the sector bodies and have taken advice and guidance from the changes that may have occurred to the sector strategies. We have given centres clear guidance on the types of evidence that needs to be submitted whilst ensuring that the qualification maintain the validity and meets the objectives set by sector bodies. We have also ensured that all mitigations set out in adaptions meets the Ofqual conditions set out in VTQCov7.1</p>
<p>Steps taken to minimise risks to validity.</p>	<p>Centres and curriculum areas must also ensure that any amended assessment methods are:</p> <ul style="list-style-type: none"> • Valid - they assess what they are intended to. This can be ensured by mapping new methods and tasks to learning outcomes and assessment criteria. • Reliable - that methods produce comparable results irrespective of where or when they are applied • Sufficient - evidence should be gathered from a variety of sources, where possible. This may be evidence which has already been generated or may involve assessors providing learners with additional and alternative opportunities to demonstrate their competence, knowledge and understanding through a range of reasonable and practicable alternative activities (e.g. open book essay or report writing in lieu of closed book, assessment video observation, time-limited assessments, and professional discussion).

NOCN Record of Mitigations - Summer Assessment Series 2020

Vocational and General Qualifications – Adaptions

	<p>NOCN will implement an extraordinary quality assurance model, which will have a similar approach to its usual approach of Centre monitoring. The two purposes of the extraordinary model will be to review the Centre's approach in adapting assessments to ensure it is in line with qualification requirements. Adaptions to assessments will be quality assured by NOCN EQAs taking into consideration the specific nature of the assessment.</p> <p>All NOCN EQAs involved in the quality assuring of Centre adaptions will be provided with training and guidance to ensure that evidence meets the needs of NOCN unit requirements.</p>
Any potential outstanding risks to validity.	By quality assuring Centre adaptations and providing clear guidance to centres, NOCN does not foresee the validity of its qualifications from being compromised.
AO capability and capacity	A lot of work is required to ensure that the process can occur in the timescales required and that it is completed in a compliant manner. NOCN will review resources at regular intervals to ensure timescales are met and are met to a high standard. We will be taking a risk-based approach to all the quality checking of any adaptation.
Impact on centres and learners	NOCN does not believe that adaptions to assessments will cause an unnecessary amount of burden on centres or affect the validity of learner assessments. By providing centres with a list of adaptions that NOCN has deemed safe and by externally quality assuring other adaptions by centres, NOCN believes that adaptions will allow for the same quality of standard of achievement as normal qualification delivery.
Minimisation of bias	Centres must ensure that their adaptations to assessments do not prevent a learner, or a group of learners, from being systematically advantaged or disadvantaged by having or not having a protected characteristic (such as appearance, social background or special educational needs) that do not relate to their knowledge, skills and abilities in relation to the subject. This will be monitored by NOCN through external quality assurance activities.
Timeline for mitigation	<ul style="list-style-type: none"> • 13th May - NOCN publishes policy statement and guidance to centres regarding the summer 2020 assessment series • By 27th May - Centre ensures all affected learners are registered with NOCN. • By 5th June – Centre develops their own policies for determining CAGs.

NOCN Record of Mitigations - Summer Assessment Series 2020

Vocational and General Qualifications – Adaptions

	<ul style="list-style-type: none"> • 8th June – Spreadsheet template for submission of CAGs is made available to centres. • From 8th June to 31st July – Centre determined CAGs, records this on the NOCN spreadsheet template and submits to NOCN via Quartzweb. • 6th July to 13th August – NOCN quality assurers CAGs. NOCN informs Centre of decision following completion of activities. • By 12th August – Centre submits claims using calculated grades issued by NOCN for Level 3 qualifications. • By 19th August – Centre submits claims using calculated grades issued by NOCN for Entry Level to Level 2 qualifications. • From 13th August – NOCN issues any due certificates to learners using its normal procedure.
<p>Outline key risks identified and the mitigations</p>	<p><u>Engagement with Centres</u> Due to the current lockdown in the United Kingdom, we could face non-engagement from centres who are closed, which may lead to learners not being certificated, or adaptations being carried out without quality assurance activities taking place or NOCN seeing sight of them. NOCN will actively communicate with centres through bulletins, updates on our website and email and telephone communication where possible. NOCN will keep a record of all centres who have engaged with the process and will inform the Regulator where it believes learners may be in the system or if an Adverse Effect has occurred to inform next steps.</p> <p><u>Access to Technology</u> Adaptations rely on Centre and learner access to technology, such as for video observations or for remote invigilation. We have cause to believe that this may not be a big issue from feedback we have received from centres, however it may still be a risk. NOCN will work with centres on an individual basis where concerns are raised regarding access to technology and NOCN will work with the Centre to determine flexible approaches that keep true to qualification and assessment requirements.</p> <p><u>Certificate Recalls Following Ease of Lockdown</u> There is a risk that after lockdown eases and NOCN resumes its normal quality assurance activities, there is a risk that adaptations may have not covered full qualification outcomes, which may not have been picked up by quality assurance activities. NOCN will take all preventative measures to decrease the likelihood of this occurrence. If it does occur, NOCN will take all reasonable steps to prevent the occurrence of an Adverse</p>

	Effect and only as a last resort will NOCN revoke a certificate. If this is the case, NOCN will inform the Regulators.
Other information	<p><u>Appeals</u> Complying with the direction provided by the Secretary of State, NOCN will allow learners to have a right of appeal regarding the process for grade or outcome estimation. Learners will not be able to appeal their qualification final grade or outcome, but will be able to appeal regarding the process and where they believe their registered Centre, or NOCN as their Awarding Organisation, has not followed the correct process in determining their result. NOCN will ensure that the availability of an appeal regarding the process is made clear to both learners and centres by ensuring that an appeal statement is published and shared on our official website. The appeal statement will bolt-on to NOCN’s current appeal policy and the procedure for which appeals will be heard and addressed will follow a similar process.</p> <p><u>Policy on No Response</u> A pragmatic approach will be taken regarding centres who are not able to complete the grade calculation process due to the COVID-19 disruption. NOCN supports an open dialogue with its centres and through external quality assurers will proactively communicate with centres to determine the practicability of the Centre adapting its assessment delivery approach.</p> <p>Where a Centre refuses to work with NOCN to adapt qualifications in a compliant manner, or where there are substantial cause for concern regarding a Centre’s ability to adapt assessment delivery, NOCN will promptly report this to the Regulator.</p>
Expected date(s) of results issue	By 12 th August 2020 for Level 3 qualifications. By 19 th August 2020 for Entry Level to Level 2 qualifications.
