Bootcamp – Insulation

Bootcamp overview

Bootcamps are intensive, fast-paced training programmes designed to quickly develop practical, job ready skills in a specific area. They typically run for 6 to 10 weeks and involve between 60 and 150 guided learning hours (GLH). Bootcamps focus on hands-on, applied learning rather than theory, and are often tailored to meet current industry needs, particularly in sectors like digital, tech, green energy, and health.

Bootcamps are aimed at adults looking to upskill, retrain, or change careers, and are commonly delivered through partnerships between training providers, employers, and government schemes. Many include employer engagement, project work, and direct links to job opportunities at the end. They offer a flexible and focused alternative to longer qualifications, often leading straight into employment or further training.

This bootcamp aims to provide learners with the skills to install insulation.

These focused bootcamps are particularly suited to individuals seeking to specialise or meet entry requirements for further qualifications or employment in sectors such as construction, manufacturing, or engineering. Learners can choose to complete one or progress through multiple bootcamps to broaden their skillset.

NOCN's Insulation Bootcamp Bundles:

1. **Applying Surface Finish to External Wall Insulation**
   Structure & Content:
   - I. Apply Surface Finish to External Wall Insulation (A/650/7450)
   - II. Health and Safety Awareness in Construction (NOCN Assured Course)

- Online and/or face-to-face teaching package
- Online assessment

Personal Branding for Career Success / High Impact CVs / Interview Excellence

- Online teaching and learning resources

Bootcamp – Insulation

Who are we?

NOCN Group is an educational charity whose core aims are to help learners reach their potential and organisations thrive. The group includes business units specialising in regulated UK and international qualifications, End Point Assessment, Access to Higher Education, assured short courses, SMART job cards, assessment services, consultancy, and research.

We influence: We work closely with regulators and governments to influence policy decisions affecting the sector on behalf of the providers we serve.

We specialise: Our subject matter experts create learning content tailored to meet the future needs of the sectors we operate in.

We care: We aim to work in partnership with our customers, offering support and training to ensure an excellent learner experience.
